With the expeditionary force of United States Marines hurried to the west coast of Mexico to prevent a possible massacre of Americans and other foreigners by hostile Yaquis in the vicinity of Topolobampo, is Fred W. Snelling, of Ogallah. Fred, who is a son of James Snelling, of Ogallah, enlisted in the United States Marine Corps at Denver, Colo., on December 29, 1913, and until the order came to embark on the San Francisco Exposition. The marine's life is kept filled with excitement and adventure. He goes to all parts of the world in the performance of duty, and young Snelling has had many interesting experiences while serving with the soldiers of the sea.

Funeral services will be held at the German Lutheran church, Friday at 1 o'clock p. m. In the absence of the pastor here the German Lutheran pastor of Ellis will officiate. Mrs. Schroeder was a woman of splendid qualities and at one time was a near neighbor to the World family, and it is seldom that a better woman is met along life's journey. She was the essence of goodness and kindness to those about her. She was a loving wife and mother and a kinder friend could not be found, and in her passing the world has lost a true Christian woman. The World extends sympathy to the bereaved family in this their sad hour.

The Review Headlight will keep him informed as to the happenings in this part of the moral vineyards.—Ellis Headlight.

Chas. Steinberger installed a new gasoline engine in our office this week. It is a three horse power Foss. This engine is one of the best on the market and is a fine piece of mechanism. We want our friends to drop into our place of business and see our line of machinery in motion. Call Friday afternoon. Every boy and girl in Trego county should some time or other during the next year call upon our office on Friday afternoon and see the old reliable turn out 1200 papers each issue in less than one hour time.

Miss Betty Penny who has been proprietress of the American House for the past five years moved into the old Central House the latter part of the week. She has renovated this hotel from cellar to garret and you would be surprised to see what paint, paper and a good cleaning up will do to a house like this one. Everything is right up-to-date and will be kept in that order as long as the present proprietress has charge of it. The name will be changed to the "Penny Hotel." We bespeak for the new hotel a liberal share of your patronage.

The Wm. Shrenkler elevator, the largest between Hays and Denver, is at last completed. This is really a wonderfully constructed piece of work and is very complete in every detail and will add much to the convenience and comfort of the Trego county farmer in the handling and disposing of his grain. Its capacity is 32,000 bushels and it is absolutely fire proof and practically dirt proof. Farmers should read Mr. Shrenkler's ad. in this issue, in it will be found much that will interest them. Mr. Shrenkler is in every way worthy of the patronage which he will doubtless receive.

DOUBLE SERVICE Automobile Tires

Guaranteed 7,000 Miles Service

Absolutely Punctureproof

Double Service Tires are made double the thickness of the best standard make tires. This 100% greater wearing surface naturally gives them much more mileage and service. The tread of 2 miles of tread makes these tires absolutely punctureproof. These tires excel all others for use in the country over rough and rugged roads as well as on the highway and are equally reliable and resilient as any other pneumatic tire—the air space and pressure being the same. They are the most economical and "care free" tires made and are used where lives and money are depended on and tire trouble cannot be tolerated. Many Double Service tires are in use in the U. S. government and European War service. Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an introductory offer.
